Besel&Schwaeller Kapcsolóberendezések Kft.

**BESEL&SCHWAELLER KAPCSOLÓBERENDEZÉSEK KFT.**

## **PRESS RELEASE**

**BESEL&SCHWAELLER KAPCSOLÓBERENDEZÉSEK KFT.  
HAS IMPROVED ITS PRODUCTION CAPACITY**

**Besel&Schwaeller Kapcsolóberendezések Kft. has implemented production capacity expansion by using European Union aid.**

Besel&Schwaeller Kapcsolóberendezések Kft. has won HUF 11,260,905 non-refundable EU aid in the 'Production capacity expansion of micro-, small- and middle-sized enterprises' tender under the Economy Development and Innovation Programme.

In the framework of the investment the company has integrated a cable processing automated machine of high capacity into the production process of the interface cables, and an industrial freight elevator has been installed in its recently delivered new production hall.

Besel&Schwaeller Kapcsolóberendezések Kft. has grown to be an enterprise using the most advanced technologies, continuously expanding in the industry. Its principle activity is electrification of switchgears and manufacturing cables, cable harnesses and interface cables.

Due to the intense flexibility of the company and the perfect quality of its products it has become a solid partner for numerous top companies in the global market in the field of metalworking, woodworking, pharmaceutical, and solar technology mechanical engineering, as well as of the car industry.
